Where there is no vision,  
the people perish.

August, 2010

Do you have any missionaries nearing retirement? Are you looking for missionaries to support? Would you like your church family challenged in the area of missions? I am writing to ask you to consider having one of our own couples come to your church.

Mark Boyd came to us directly from Holland where he grew up under the ministries of his grandfather and father who are veteran missionaries there. We have watched him mature, meet Leslie, get married, have their first three children, and faithfully serve the Lord among us. Leslie has had exposure, experience, and training in missions. They have been a part of our church since coming to Faith Baptist Bible College. Fellowship Baptist was established in 1982, and they are the first missionaries to be sent by our church and the first missionaries I have personally been involved in sending.

The Boyds have been examined and approved by Baptist Mid-Missions to go to Germany to plant churches. Mark already has a grasp of the language and they will assist veteran missionary Jeff Brown in Nuremburg, We believe this will be a perfect fit for them. On November 23, 2008, Mark was ordained and both Mark and Leslie were commissioned by our church the same day. They officially began deputation January of 2009, and we have seen God provide meetings and 32% of their support in just a year. They are currently at 41% of their needed support.

We were so excited to get them to the field of Germany that we began their support immediately at twice the level of any other missionary we have supported with the goal to at least double that support while they are on deputation. In this first year, we increased their support by half of that goal. We will also be setting aside the funds necessary for outfit and passage in a designated account for that purpose.

Thank you for taking the time to read about the Boyds, and if you have any questions, don't hesitate to call or email.

Jeff Holub, Senior Pastor
